

PLAYGROUND PRINCESS REWARDS POINTS PROGRAM

Playground Princess appreciates your business and to show our gratitude we have introduced a Rewards Points Program. We sincerely hope you take full advantage of it.

We have made it super easy for you to be part of our Rewards Points Program. Simply make a purchase through our website or via email and that's it, no application or approval required. You immediately start earning points on your first purchase. These points can be redeemed for dollars on any future online purchase with us.

HOW IT WORKS:

For every \$20 you spend (excluding postage), we will reward you with 1 Reward Point.

Redeemable value of 1 Reward Point = \$1

You can make multiple purchases over a period of time and save your points for something big or you may choose to use your accumulated points upon your next visit.

*Please Note: Your reward points are valid for **6 months** from purchase date.*

Example: you purchase a Playground Princess product for \$100. We will reward you with 5 Points. This equates to a redeemable value of \$5.

If you decide at a later date to purchase another Playground Princess product worth \$60, you can use all or some of the 5 reward points (you accumulated from previous purchase) towards this \$60 purchase. If you decide to use only some of your points, the points you don't use will remain on your account for future purchases. Alternatively if you decide to use none of your accumulated points on your \$60 purchase you will receive another 3 Customer Reward Points (Remember that every \$20 spent you receive 1 point which equates to a redeemable value of \$1). The 3 accumulated Reward points will be automatically allocated to your Reward Points Balance of 5 points (previously accumulated from your \$100 purchase), giving you a total 8 Customer Reward Points or \$8 to use towards your next purchase with Playground Princess.

SIMPLE 3 STEP PROCESS

1. Make an online / emailed purchased
2. Await an email confirmation with an attached tax invoice / order form which will contain your reward points earned for your recent purchase
3. Go shopping again or hold on to your points for a future purchase.
